

ADIGO TA104 - 200

Telescopic Microphones

- Various models of the Mymex Microphone TA-104-200 are commonly used for driver communication in public buses.
- The telescopic arm can rotate freely without limitations.
- There are no connectors or cables in the moving parts, reducing the risk of operational errors.
- Certified according to R118-03 safety regulations.
- Maintaining a consistent design, these models are tested for flame propagation according to ISO 6722-1:2011 and certified by the Swedish Transportation Agency (Approval No. E5118R03/01005800).*

Model Number	Description	Frequency Range	Sensitivity	Impedance
050348	TA 104-200 Dynamic	50..8000 Hz	1 mV/Pa	200 Ω
164001	TA 104-200 Dynamic (Includes 4m cable)	50..8000 Hz	1 mV/Pa	200 Ω
164002	TA 104 Electret	50..10000 Hz	10 mV/Pa	2200 Ω
